EQUINE EQUIPMENT

PROTECT WHAT MATTERS MOST

HOW TO MAKE THE RIGHT CHOICES

Exterior barn doors and windows from Classic are the perfect complement to your horse barn. Available for all standard size entrances or custom designed to fit your breezeway, paddock opening, and windows.

DESIGN FOR YOUR HORSES

- ? How to increase natural light in the barn?
- ? How can I improve ventilation into the barn and stalls?
- ? Should I consider adding a yoke to the windows?

CUSTOMIZE FOR YOUR BUILDING

- ? Which direction should the doors and windows open?
- ? Are there obstructions in the way of door swings or sliders?
- ? How wide and tall are the openings for doors and windows?

ALIGN WITH YOUR PREFERENCES

- ? Do you prefer cross-buck or a contemporary styling?
- ? Would you like wood fill top and bottom or glass top?
- ? Do you have a specific color and design to match?

CONNECT WITH A DESIGN CONSULTANT

Whether you're remodeling an existing barn or building new, our design team can help bring your dream barn to life.

COLORS

Select from 11 standard colors or request a custom color to match your barn. We use super durable, UV stabilized TGIC polyester powder coating that is non-toxic to both horses and humans. Zinc primer or hot-dip galvanization also available.

Black	Slate Grey	Mohave Brown
Black Fine Texture	Light Grey	Brick Red
Patrician Bronze	Sandstone	Bone White
Hunter Green	Camel	Color of choice

FILL OPTIONS

Classic offers a range of tongue-and-groove fill options for horse stalls that provide structural and aesthetic benefits. While no product exists that we can say is completely "horse proof", we offer you solid choices to keep your horses safe.

UNSURPASSED SAFETY FOR HORSES AND PEOPLE

EUROPEAN SERIES

Hinged-door stalls provide unsurpassed safety with distinct European styling and details. The open designs are optimized for both visibility and ventilation. Ideal for barns with wider aisles, hinged doors open wide for maximum accessibility.

LEGEND SERIES

Sliding-door stalls do not swing outward into the aisle and are ideal for busy facilities where multiple horses are frequently coming and going. The space-saving design also makes them a great choice if you have a narrow aisle in your barn.

COMPONENT KITS

Classic offers all the safety, quality, and craftsmanship found in our full-frame stall-front series in do-it-yourself stall component solutions. Choose from sliding-door Integrity stall components or hinged-door stall components.

HORSE STALL FLOORING

Durable solutions for stalls, aisles, walkways, grooming stall flooring, or anywhere you need a safe surface for you and your horse. In addition to safety, rubber pavers add a decorative flair to your dream barn.

BARN DOORS AND WINDOWS

Our steel-framed doors and windows are built to the same high standards as our award-winning stalls and doors. The hinges and sliding-door track hardware we use ensure safe and consistent operation.

HORSE BARN ACCESSORIES

Complete your dream barn with stabling accessories, including wash bay components, barn fans, lighting, waterer and feeding options, tack room organizers and storage solutions, and pasture gates.
